Agenda Item: Downtown Parking Lot

Prepared by: Patrick Stasio, Township Manager

Background/Analysis: Upper Moreland Township owns a downtown parking lot consisting of (13) parking spaces. The lot is located at the intersection of Davisville and York Roads. The Township desires to improve and redesign the parking lot as part of the downtown beautification projects.

Agenda Summary

Regular Meeting – December 2, 2024

Finance and Administration Committee Meeting – January 13, 2025

Regular Meeting – February 3, 2025

Agenda Item: Maryland Road Culvert Repairs

Prepared by: Patrick Stasio, Township Manager

Attachments: Recommendation Letter

Background/Analysis: The culvert under Maryland Road has been identified as failing and in need of repair. The Township successfully submitted a DCED grant application and was awarded \$897,375 for this project, 10% of which can be used for engineering inspections or \$89,737.50. The project was successfully bid and the lowest responsible bidder was identified and all references were verified. The low bid is for \$680,079.25.

Fiscal Impact/Sources: The DCED grant will cover the cost of the improvements and since 10% of the grant may be used for inspections, most of the project will be covered completely via the grant.

Project Bid Cost:	\$680,079.25
Inspection Cost Not to exceed:	\$98,800.00
Total Cost Projection	\$778,879.25

The Township cost would be the difference between the inspection cost and the allowable amount permitted to be used for inspections (10% of the grant award)

Inspection Costs Allowed	\$89,737.50
Projected Inspection Costs	\$98,800.00
Township Share	\$9,062.50

Alternatives: N/A

Recommend Action: Committee recommends to move forward for consideration by the Board of Commissioners at the February 3, 2025 Regular Meeting.

Agenda Summary

Finance and Administration Committee Meeting – January 27, 2025

Regular Meeting – February 3, 2025

Agenda Item:	PA Public Utility Commission One Call System Advocacy Letter
Prepared by:	Patrick Stasio, Township Manager
Attachments:	Advocacy Letter
Background/Analysis:	Failure to respond to PA One Call System (POCS) notification process within a two-hour time frame during an emergency is an unrealistic burden placed on Upper Moreland Township and others. As an example, an accident occurs at 2AM on a Saturday, Upper Moreland Township, and others, are required to mark all underground utilities within two-hour of notification, even if the Township has no underground structure in the area of the accident. In addition to possibly sending a crew within the two hours, the Township must also complete information on line, all within the two-hour time frame.
Fiscal Impact/Sources:	Failure to completely respond within two-hours results in a fine of \$1,000 for each occurrence.
Alternatives:	N/A
Recommend Action:	The Committee recommends to move forward for full Board of Commissioner consideration at the February 3, 2025 meeting.

Re: Request for Advocacy on behalf of Upper Moreland Township

Dear Ms. Sturges:

On behalf of PML and PSATC member Upper Moreland Township (the "Township") I write to bring a legislative issue to your attention that is of great concern to the Township. Upper Moreland Township has been recently subjected to multiple notices of violations related to the Pennsylvania Public Utility Commission's (PA PUC) administration of the Pennsylvania One Call System (POCS) which was created by the Legislature through the Pennsylvania One Call Law (Act 50). In short, Act 50 and the POCS regulations require the Township to have a designated official to receive electronic notices through the POCS in order to respond to incidents in which construction is occurring near public utilities and file a subsequent report concerning the same into the POCS system within two hours of receipt of the notification. The regulations are equally applicable if the work being performed on or near public utilities results in an emergency situation in which damage has occurred to a utility's equipment or a routine notification to visit the site and confirm that utilities do or not exist in the intended construction area.

A failure to respond to the POCS notification in the two-hour timeframe results in a notice of violation and subjects the Township to a sliding scale monetary fine starting at \$1,000 for a first violation. ACT 50 and the POCS regulations provide for an opportunity to contest the violation before the PUC's Damage Prevention Committee (DPC). Per the PUC regulations enacted concerning ACT 50, the DPC is to consider several factors in determining whether to uphold the violation and enforce the monetary fine. These factors, found in Section 7.10 of Act 50, require the DPC to consider: (1) the amount of injury or property damage caused by the party's noncompliance; (2) the degree of threat to the public safety and

inconvenience caused by the party's noncompliance; (3) the party's proposed modification to internal practices and procedures to ensure future compliance with statutes and regulations, and; (4) other factors as may be appropriate considering the facts and circumstances of the incident.

Until this year the Township had never received a notice of violation of POCS. Suddenly, beginning in April of this year, the Township received multiple notices of violations for alleged failures to respond in a timely manner to the POCS notifications even though the work performed in each incident cited in the violations were on private property in which the Township had no utilities located on or near, the Township Public Works director notified the private parties of the same and sent Township personnel to the site in a timely manner once the damage to the public utility operators lines was reported, and responded in reasonable time frame in the POCS system.

The Township appealed the first notice of violation received and appeared before the DPC on November 13, 2024. Simply put, the DPC appeal process is a sham and does not provide any actual due process to contest the violations. The DPC's meeting rules do not allow for the Township Solicitor to put on a case in defense of the violation and instead only allows lay testimony from the Township official who responded to the POCS notification; a person who is not a properly equipped to put on a defense to such a technical set of regulations. The DPC also does not in any form allow evidence or testimony to establish the factors contained in Section 7.10 of Act 50 to defend the violation or mitigate the amount of the imposed fine. Rather, the DPC affords the defending party a few scarce moments to discuss the incident before assuming control of the proceedings in which they impose the full fine of the violation and chastise the defendant for not having a better set of internal responsive procedures. By way of example, at the November 13 DPC meeting there were approximately 37 appeals of notices of violations. Repeatedly, the same pattern described above played out with the DPC not lowering the fine or dismissing the fine for all but one of the 37 appeals.

In addition to the lack of any meaningful due process afforded by the DPC during the appeal hearings on the notices of violation, the Township is equally concerned with the effect that the uncompromising decisions of the DPC impose on the Township. The Township, and all other parties to an incident, are expected to within two (2) hours of a POCS notification respond and clear the incident through the POCS electronic system or have a fine imposed. Repeatedly, the DPC asserted that it does not matter if the incident occurs in the early morning hours or after the normal working hours of the Township have concluded; nor does it matter if the incident occurs at any time over the weekend, a Township must respond within the two-hour window or face fines.

This ridged, inflexible view of Act 50 and the regulations renders it borderline impossible for the Township to respond in these "off-hour" situations and will require the Township to pay costly overtime monies and/or hire additional employees to respond to these incidents to avoid heavy fines. In this current economic climate with inflation running rampant and Township resources stretched to the breaking point, adding these additional costs simply to satisfy the DPC's warped and incorrect application of Act 50's requirements presents an incredible burden on not only Upper Moreland Township, but all classes of Townships, Boroughs and local political subdivisions. We respectfully implore PML to advocate to the PUC and the Legislature to address this untenable situation.
