 - Commissioner Nick Scull commented about difficulty with contacting a property owner concerning issues with a rental or properties that are held by a bank located in another state.

IX. Public Comments:

Dr. Sue Worth-LaManna, resident and Historical Commission Chair, discussed concerns about speeding within the Township, requested reducing speed limits and alternative solutions for enforcement. Notable news:

13 new LP35 monitors have been placed in service after members attended training on their use

On February 2nd A/C Davidson and a few colleges from the AA-PA met with Representatives Cooper Borowski, Gillen and members of the insurance lobby in Harrisburg to discuss legislation aimed at establishing both a statewide fee schedule and balance billing protections.

Also on February 2nd A/C Davidson and a smaller group met with Representative Causier to discuss language in legislation he was proposing that may be necessary to assist some EMS agencies on other parts of the state but that could have had unintended consequences for systems in our area.

On February 17th SARS and multiple mutual aid companies responded with Weldon Fire Company and over 60 mutual aid fire companies to a large industrial fire at SPS Technologies located at 301 Highland Ave. in Abington Township. SARS had multiple units in service supporting the fire operation for 114 consecutive hours.

Fortunately, and amazingly, there were no injuries or fatalities as a result of this event and the singular patient that was transported was a patient with pre-existing medical issues that was taken to the hospital during the partial evacuation that took place on February 18th.
